Notes

ADVENTURE IN THE COUNTRY OF THE BAOBABs

Madagascar, the country nicknamed the red island, is a true land of contrasts. Between the red of its land and the green of its cultures and forests, this ecotouristic destination at the crossroads of Africa and Asia, has preserved its authentic character despite the development of tourism. Its atypical local population, its unique landscapes and its historical vestiges make it one of the most original destinations of the continent to visit. Leave for a trip to Madagascar and come back with stars in your eyes.

THE PROGRAMME

A trip to Madagascar is a real experience in itself. Immerse yourself in a culture as fascinating as it is diverse and let yourself be surprised by the beauty of the place. This trip allows travelers to enjoy the diversity of landscapes of northwestern big island. A solidarity

adventure organized in collaboration with peasant structures. This solidarity trip contributes to the improvement of the daily activities of the farmers, but also to the improvement of their quality of life.

This tour will allow travelers to discover and live the local reality, but activities rich in discoveries will also be at the rendez-vous!
